

Congratulations!

London Health Sciences Centre is activated and they enrolled their first two patients.

LOVIT-COVID Trial

World Health Organization has prioritized vitamin C as a treatment for study in COVID-19. We have therefore obtained additional funding to expand the LOVIT program to conduct a second trial that will evaluate vitamin C in patients with COVID-19 who do not meet the eligibility criteria for LOVIT. Specifically, the LOVIT-COVID trial will include patients who are hospitalized with COVID-19 and are not taking vasopressors. This includes both patients in the hospital ward and ICU. LOVIT-COVID follows a very similar protocol to LOVIT. We have received approvals from Health Canada, CTO and Quebec central REB. We are hopeful that most LOVIT sites will participate.

If you are interested in participating, please contact the LOVIT Project Managers.

LOVIT AND CO-ENROLLMENT WITH HALO, CATCO, AND REMAP-CAP

We are pleased to inform you that co-enrollment with HALO, CATCO, and REMAP-CAP is permitted in LOVIT. Forms 1.2 and 5 have been revised accordingly.

COVID-19 STATUS AT RANDOMIZATION

For all future patients randomized in LOVIT, please answer (within 24 hours of randomization) question 8 on form 3.2 which asks about the COVID-19 status of the participant at baseline. This will help us to keep track of the status of COVID-19 patients.

CHANGES IN THE DATABASE – FORMS 3.2 and 5

1- Form 3.2, question 8 and Form 5, question 1.1

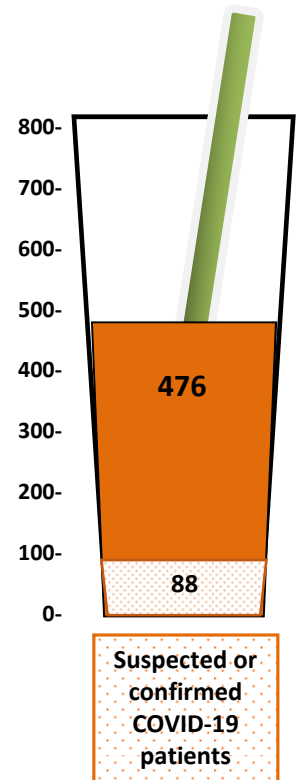

If not already done, please answer these questions for all participants randomized on or after January 25, 2020. For the patients randomized before January 25, 2020, the 'Not applicable' option has been checked automatically. If a patient is confirmed COVID-19 positive and later retested and negative (for example, after several weeks in hospital), please check 'Confirmed' at question 1.1.

2- Form 5, question 7

For participants with the response option 'Alive' checked, please enter data for questions 7.2 and 7.3. For participants with the answer 'Presumed alive because discharged alive before day 28' checked, please enter data for questions 7.1, 7.2, and 7.3. If after looking for the answers for 7.2 and 7.3 you really don't have them, please enter the missing code (in the left corner of the screen click on the 3 dots and click missing) and type 'Data not available' for the reason in the data value box at the left corner of your screen.

Enrollment Update

Sites	In progress	Activated	# patients enrolled in June 2020	# patients enrolled as of June 2020
